United States Judicial Panel  
on Multidistrict Litigation  
October 2012

**STATISTICAL YEAR SUMMARY OF  
TRANSFER OF CASES  
UNDER 28 U.S.C. § 1407**

## STATISTICAL YEAR SUMMARY OF TRANSFER OF CASES UNDER 28 U.S.C. § 1407

The United States Judicial Panel on Multidistrict Litigation acted upon 22,319 civil actions pursuant to 28 U.S.C. § 1407 during the twelve-month period ending September 30, 2012. The Panel transferred 6,909 cases originally filed in 92 district courts to 46 transferee districts for inclusion in coordinated or consolidated pretrial proceedings with 15,410 actions initiated in the transferee districts. In addition, the Panel did not order transfer in 54 newly docketed litigations involving 332 actions.

The various joint implant and pelvic repair products liability litigations were among the more significant of the Panel's transfer determinations. Although litigations involving other products liabilities and/or sales practices, were the most prevalent litigation types of the 62 dockets transferred during the fiscal year, patent dockets experienced notable growth, going from just 3 transferred in FY 2011 to 9 in FY 2012.

Since the creation of the Panel in 1968, there have been 415,995 civil actions centralized for pretrial proceedings. As of September 30, 2012, a total of 13,065 actions had been remanded for trial, 398 actions had been reassigned within the transferee district, and 341,836 actions had been terminated in the transferee court. At the end of this statistical year, there were 60,696 actions pending throughout 55 transferee district courts.

*Note:* From 1993 until March 2011, the JPML tracked the number of cases where the termination status value of Returned/Claims Remain was used to distinguish those cases where certain punitive damage claims were retained by the transferee district court while the remainder of the claims were returned to the transferor courts. Those claims remaining in the transferee court have subsequently been resolved and the status for those 828 cases has been updated to Closed.
